Gary Alles is a Project Manager for the Construction Division of Gundaker Commercial Group (GCG), joining the company in 1994. He began his reputable career in residential construction more than 38 years ago as a carpenter's apprentice. Throughout his professional life he has gained extensive experience in numerous areas of commercial and residential construction. His projects include bank and office buildings, retail projects, elderly care facilities, town home communities and apartment developments. One of his more notable projects was his role as construction manager for a 124-unit apartment complex with an attached nursing facility built in Atlanta, Georgia.

Mr. Alles has completed a wide array of projects throughout the St. Louis metropolitan area. He is known for taking on any challenge and remaining focused throughout the duration of the project, primarily focusing on the intricate details of every task. His current project scope includes both retail and office sites.

Mr. Alles is a graduate of Parkway Central High School and has supplemented his education with a variety of classes related to construction and development. His continuing education realm includes coursework in civil engineering, surveying and estimating.
